MOTION APPROVED

A. ZBA Case 09-2014, Michael and Danielle Carroll, 6500 Academy Dr., Brighton, MI 48116 request two variances, first request is for a side yard setback of 3.3 feet and the second request is to keep the existing 36% for impervious surface. This would allow a second story addition.

Representing ZBA Case 09-2014:  Michael and Danielle Carroll, owners

Mr. Carroll explained the two variance requests. He explained that when they first moved to the Township they proposed a second story that was 26’ wide. They attempted to alter the plans so that a variance was not needed. They went from 26’ to 22’ in order to maintain the current footprint. They have not done anything to add to the lot coverage but kept it as it is currently. The lot size is small. He also explained that both neighbors are in agreement and had no issue with the proposal.

Mr. Weinburger opened the public hearing at 7:07 p.m.

John Mogelnicki, 6600 Academy Dr. – Mr. Mogelnicki stated that the hardship is due to the original platting of the property and the subsequent variation of the Township’s ordinance. He stated that this will allow the room for their family by building up. The vacant lot to the north of them is not buildable which is a plus since it won’t cause a problem with adjacent property nor is it too close for fire emergencies.
John Connoly 6169 Island Lake Dr. – He supported the project and asked the Board for their support.

Mike Carroll, 6520 Academy Dr. – He stated that the applicant needs a little bit more room for their family and expressed how the neighbors have rallied around the applicant and are in support.

Mr. Weinburger closed the public hearing at 7:11 p.m. due to no further comments.

Motion by Gaylord, second by Tuthill
To approve ZBA 09-2014 because there are exceptional circumstances and conditions applicable to this property that do not generally apply to other properties in the area or district specifically, the non-conforming 41’ lot brought down to a 30’ lot size prohibits building a home creating a practical difficulty.

The variances are necessary for the preservation and enjoyment of a substantial property right possessed by other property in the same district or surrounding area and is not a condition or situation which is a general or recurrent nature for the following reasons: Variations of lot sizes are abundant in the area and the footprint shows a practical difficulty to build a two story home.

The granting of the variance will not be materially detrimental to the public welfare or adversely affect the surrounding properties in the district for the following reasons: No negative impact is created in the surrounding area. The practical difficulty is not self-created for the reason that the resident is still maintaining the current distance to the neighbor’s property with no changes to the footprint.
