

Enviro Rain Barrel

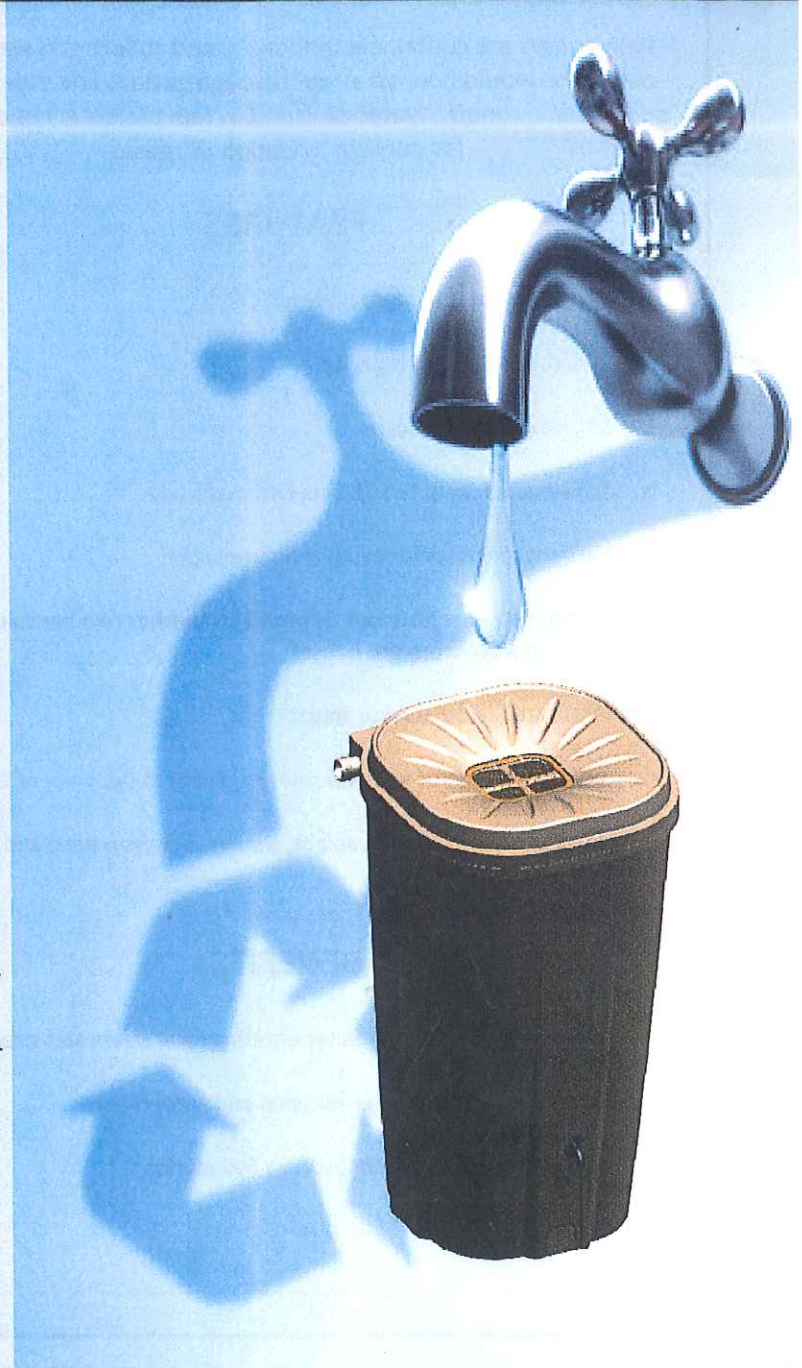

Lets Work Together!

Enviro World Corporation is a new company that will provide high quality products and solutions to its customers. Enviro World Corporation is owned and operated by Basil Thompson, whom resigned his respective job at Norseman Plastics Limited, an ORBIS Company in order to specialize in helping the environment by creating products and solutions to help create a better tomorrow.

“Our focus is not solely on selling a product but rather building one on one relationship with our customers.”

Enviro World Corporation incorporates a culture of corporate accountability for their actions as a company and their impact on the world and its environment. We are committed to a holistic program of sustainable initiatives, which are focused on developing successful solutions to protect the environment for current and future generations; therefore, creating a better quality of life for mankind and all living species. Specific core programs are dedicated to continual improvement and measurement in waste, recyclables and water conservation, and GOAL ZERO for waste.

Every DROP counts!

WHAT IS A RAIN BARREL?

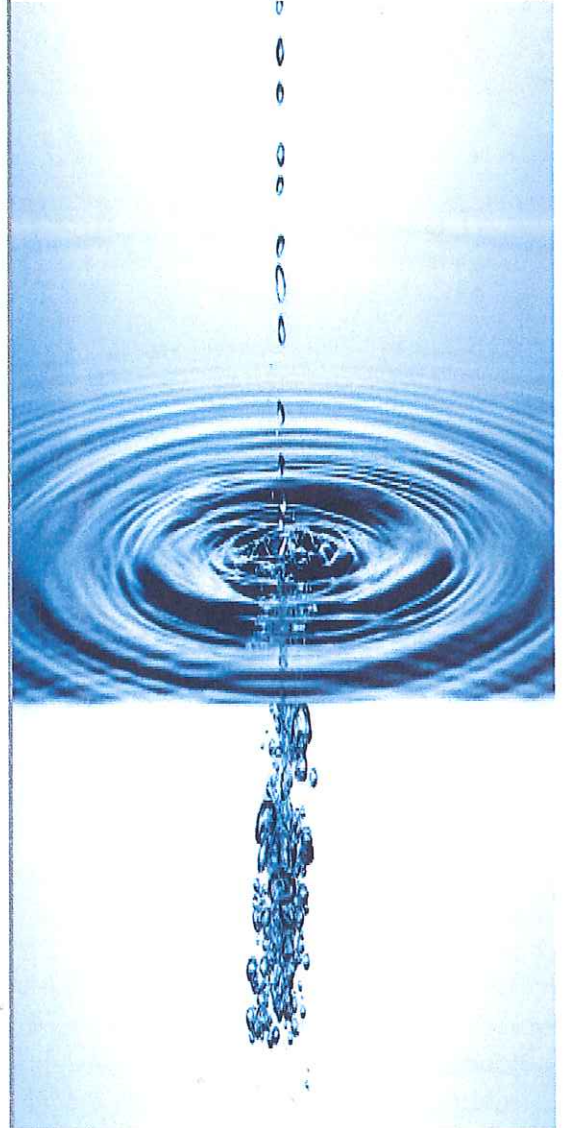

Rain barrels are containers that divert and collect rain water that otherwise would flow off a roof through gutters and downspouts and become runoff. Water captured in rain barrels is typically used for outdoor irrigation purposes.

FEATURES

- Unique shape and neutral color
- 208 litre/ 55 gallon capacity
- 34" Height x 24" Width
- Constructed of up to 50% recycled materials
- Easily accommodates existing downspouts
- 3' long overflow hose can be linked to another rain barrel or can be directed away from the house
- Contoured, easy -to-use spigot
- Snap on lid, comes with 4 screws to attach to the body of the barrel
- Installation instructions, spigot, screws, overflow hose and clamp included

BENEFITS

- Reduces the velocity of water entering local rivers and streams
- Stores high-quality water for lawn and garden use
- Directs runoff away from building foundation
- Reduces water bill
